September 18, 2017

Dear Hiring Team,

I was interested to see the entry level web developer position at RTI posted on LinkedIn and am writing to express my interest. I am currently seeking a position where I can continue to grow as a developer and gain experience with varied technologies. I am an eager and quick learner who loves to solve problems and build projects from an idea into a full application.

I am particularly interested in working in a collaborative environment where I can see how other developers tackle problems. I recently completed the UNC-Chapel Hill Coding Bootcamp and I found the cooperative coding aspect to be the most beneficial part of the program by far. During the bootcamp I developed web based applications from design to full implementation, both on my own and as part of a team. I have worked extensively with HTML, CSS, JavaScript, jQuery and Node. I am currently developing an application using React, Redux, MongoDB in order to learn more about data management with Redux. I started learning to code on my own using Python. I have had minimal exposure to C# but am confident that I could learn it quickly with practice.

I believe that I can contribute to your projects, especially as my skills develop. As I start a career in software engineering, I am seeking to gain more exposure to development by collaborating with an experienced team. Please consider my attached resume, look over my portfolio page and review my code on Github.

I look forward to hearing from you. Thank you for your time and consideration.

Sincerely,

Mary Morvan

linkedin.com/in/mary-morvan

Full stack web developer with a background in education. Advanced editorial skills ensure that all work is well documented and maintainable. Adept at working with diverse teams and independently to implement projects.

CERTIFICATIONS

University of North Carolina - Chapel Hill Coding Boot Camp, *Certificate in Web Development*, 2017

Project Management Institute, *Certified Associate of Project Management*, 2014

TECHNICAL PROJECTS

SafeKeeper (<https://safe-stream-99507.herokuapp.com/>)

- Collaborated with team using Github to develop an application that allows users to keep a secure inventory
- Implemented fully functioning project from wireframing to deployment while meeting set deadlines
- MySQL database, Sequelize ORM, DataTables jQuery plug-in, Balsamiq wireframing, Passport authentication*

CodeFriend Finder (<https://fierce-island-35221.herokuapp.com/>)

- Created a friend-finding application to match users based on responses to a coding style questionnaire
- Designed API routes using Express and constructed AJAX calls from front-end to post user responses
- HTML, custom CSS, Materialize CSS framework, javascript, jQuery, AJAX, Node backend, Express routes*

The Local Scraper (<https://glacial-springs-94882.herokuapp.com/>)

- Built a news scraping application that allows users to view, save and add notes to articles from The Local.SE
- Set up Express routes to allow CRUD operations and utilized Handlebars to build HTML templates
- Bootstrap CSS framework, Handlebars templating engine, Mongoose ORM, MongoDB NoSQL database*

WORK EXPERIENCE

Fifth Grade and Academically Gifted Teacher, **Forest View Elementary**, Durham NC 2000-2004

- Led a team of 3 co-teachers to pilot a full inclusion model
- Supervised a student teacher and several interns as well as mentored first year teachers
- Communicated with culturally diverse families to identify and cooperate on mutual goals

ADDITIONAL EXPERIENCE

Private Tutor, **Freelance**

2010-2016

Item Writer, **Measurement Incorporated**, Durham

2010-2016

EDUCATION

University of North Carolina - Greensboro

Masters of Education

University of Wisconsin - Madison

B.A. Double Major: Art History and French

References

Leonardo Ferreira

lleonardoafferreira@gmail.com

413-281-5884

Leo was one of the teaching assistants at the UNC bootcamp. He evaluated many of my projects and can speak to my ability to learn quickly as well as my technical skills.

Katie Geckle

katie.geckle@gmail.com

919-808-5697

Katie is one of my classmates from bootcamp. We often worked on classwork and projects together. We were also part of a study group which we have continued so we can still work together. She can speak to how I work on a team and my approach to projects.

Christine Sulym

soapy535@gmail.com

919-656-2052

Christine and I worked on many volunteer committees and events together during the 6 years of our children's elementary school. She was president of the PTA when I was one of the vice-presidents so she was my "PTA boss" for a while. She can speak to my leadership abilities, my work ethic and my willingness to learn unfamiliar topics.
